Requirements for [REDACTED] for Military Economic Information
on the USSR
REF: Control Numbers [REDACTED] 25X1A2g

REQUIREMENTS

1. Please extract for service on the referenced sources, the following parts of the General Requirements for Military Economic Information, submitted by this branch on 16 June 1958:
Section I, A. and B.
Section III, C. and E.
Section V, B. and C.
2. As an addition to the above, include the questions which follow.
 - A. Did the local industries under supervision of sources furnish any equipment and/or supplies to military establishments?
 1. If so, in the advance planning stages was a distinction drawn between civilian and military output for a given plant? i.e., was a distinction made between production for regular consumption and that intended for "extra market" (VNEROGOSUMERY) consumers?
 2. Were the same prices charged for identical products which were produced for both civilian and military use?
 3. Was the entire output of a local plant producing for both civilian and military consumers included in the tax plans for the area?
 4. For those products normally subject to turnover tax, was the tax collected on the portion which was delivered to the military? Did the military bear this tax? Or did they receive a rebate from some governmental source in instances where the tax was collected on their purchases?
 - B. Can source give a detailed breakdown of any accounting system used in local industry and of any periodic and special reports required for information and control at local and higher administrative and banking levels.
